Welcome to *Prompt Engineering for Everyone!* 🦄

Unlock the power of language models with ease—whether you're a curious beginner or a seasoned coder, this course is your step-by-step guide to crafting effective prompts and mastering core AI concepts.

What You'll Explore:

- **Foundational Concepts** – Dive into the basics of how Large Language Models (LLMs) work and discover what prompt engineering truly means.
- **Core Parameters for Output Control** – Learn how tweaking settings like *temperature*, *top-K*, *top-P*, *max tokens*, and more can shape and refine your AI's responses.
- **Prompting Techniques & Best Practices** – From structured outputs to prompt ensembling, explore methods that help tailor LLM behavior for better accuracy, creativity, and safety.
- **Advanced Concepts** – Delve into automatic prompt engineering, AI red teaming, bias mitigation, self-evaluation strategies, and calibration to elevate your work to professional levels.
- **Real-World Applications & Labs** – Apply what you learn through practical examples, hands-on exercises, and interactive prompts.

Lessons

Aa	Name
1	<u>Introduction</u>
2	<u>Sampling Parameters</u>
	<u>Temperature</u>
	<u>Top-K</u>
	<u>Top-P</u>
	<u>Vocabulary</u>
	<u>LLMs and How Do They Work</u>
	<u>What's a prompt?</u>
	<u>What's prompt engineering?</u>
	<u>Models commonly known</u>
	<u>Output Control</u>
	<u>Max Tokens</u>
	<u>Stop Sequences</u>
	<u>Repetition Penalties</u>
	<u>Frequency Penalty</u>
	<u>Presence Penalty</u>
	<u>Structured Outputs</u>
	<u>Prompting Techniques</u>
	<u>Automatic Prompt Engineering</u>
	<u>AI Red Teaming</u>
	<u>Prompting Best Practices</u>
	<u>Prompt Debiasing</u>
	<u>Prompt Ensembling</u>
	<u>LLM Self Evaluation</u>
	<u>Calibrating LLMs</u>

Everything here was made with love by Diego Villarroel 🐼 and his best buddy (ChatGPT), based on the resources available on roadmap.sh.

More about Diego Villarroel:

- Mody – Friendly and expert guide in Design Systems, fluent in UX, DEV, and product perspectives.
- Alex Normand – Web accessibility and inclusive Design Systems expert.
